Need help to navigate the world of disability?

Then you're in the right place and in good hands

Welcome

Kiind is a not-for-profit organisation supporting thousands of families who are raising children, aged between birth and 25 years, living with disability, developmental delay, autism, genetic, rare, undiagnosed and/or chronic health conditions.

Through our three pillars of support, we'll help you:

Connect

Connect with other families for social and emotional support and provide you with expert guidance and navigation to find the most appropriate services and supports for your child and your family.

Learn

Learn with parent education workshops, information, tools and resources to help you build your knowledge to advocate confidently on behalf of your child and your family.

Be heard

Be heard by sharing your experiences and adding your voice to those of others to present a collective voice to policy- and decision-makers to build a more accessible, equitable and inclusive society for our children.

Our Peer Navigators all have lived experience of caring for a family member with disability. They have extensive knowledge of the health, disability and education systems and can help you find the answers you're looking for to best support your child and your family.

Let us help you get connected

Speak with a Peer Navigator

Our Pathway Planning program is a free service that provides one-on-one support from a Peer Navigator to help parents and carers get connected quickly to other families and to the supports and services they need.

Join a Kiind Parent Support Group

Sessions run weekly during the school term and bring together small groups of parents and carers with children of similar ages, developmental stages or diagnoses.

Sessions are run by experienced facilitators and expert guest speakers on topics of interest to the group.

Buddy up with a parent coach

Our one-to-one Kiind Coaching program connects an experienced Kiind parent to another parent looking for guidance from someone who is further along their child's disability journey. Kiind Coaches are trained volunteers looking to share their knowledge and experience to support other parents.

Connect online

Kiind Families Facebook Network is for members only and provides an invaluable hub for parents and carers to connect with one another, to share knowledge, insights, ask questions and seek advice. Moderated 24/7, the network is a private, safe and judgement-free environment for members to catch-up.

Hospital support

Our hospital support program assists inpatients and outpatients at the Perth Children's Hospital, providing ward visits, emergency care packs, pathway planning, connection to other families and warmth and understanding in the Kiind lounge, located in the Family Resource Centre.

We'll also keep you posted

Our weekly **What's on Activity and Event Guide** will keep you informed about free or low-cost opportunities for the whole family. Delivered direct to your inbox, you'll be the first to hear about fun and inclusive family events, skill-building and therapybased activities, parenting workshops, school holiday activities and much more.

Sign up for our What's on Activity and Event Guide by visiting Kiind.com.au

So join us ... it's free

Kiind supports almost 7,000 families in Western Australia alone. As a Kiind member we'll get you connected to the help that you need and introduce you to a whole community of other families travelling a similar path to yours.
